OVERVIEW

THE RESILIENCE FORUM | THE CLIENT CONSULTANT CONTRACTOR CONFERENCE | 7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

THE 7th Edition of **The Client, Consultant, Contractor Conference**, popularly known as TQuadC, is conceived as a high-level, Saudi-specific forum for the building services engineering community. It is designed to address a central question confronting the Kingdom's built environment: How can clients, consultants, contractors, technology providers and operators deliver the scale of Saudi Vision 2030 while achieving energy efficiency, water-use optimisation, Indoor Environmental Quality (IEQ), reliability, resilience, local capability and stronger commercial discipline?

The event is intended for Saudi Arabia's active delivery ecosystem: Government authorities, master developers, giga-project entities, real estate developers, sectoral end-users (aviation, cold chain, data centres, education, healthcare, hospitality, malls, etc.), MEP consultants, MEP contractors, general consultants, general contractors, architects, ESCOs, O&M and FM firms and CaaS providers.

For sponsors, the platform is highly targeted. It is designed for HVACR manufacturers, suppliers and technology providers that want the attention of master developers, general and MEP consultants, general and MEP contractors, architects, ESCOs, FM firms and sectoral end users in Saudi Arabia. These sponsors are not merely exhibiting products; they are positioning themselves as delivery partners in the Kingdom's next generation of buildings and infrastructure.

CONFERENCE PROFILE

The Client, Consultant, Contractor Conference, popularly known as TQuadC, is a traditional gathering of government policy makers, master developers, developers, MEP consultants, MEP contractors, general contractors, architects, ESCOs, FM firms, CaaS providers, data centre stakeholders, cold-chain operators and sectoral end users. The conference gives HVACR manufacturers and suppliers a focused platform to engage the decision-making ecosystem shaping the next generation of buildings, infrastructure, communities, industries and mission-critical facilities.

OVERVIEW

STRATEGIC OBJECTIVE OF THE CONFERENCE

TO SUPPORT Saudi Arabia's transformation into a network of smart, sustainable, resilient, self-reliant and high-performance urban, industrial and mission-critical ecosystems by convening the clients, consultants, contractors, policymakers, sectoral end users and technology providers responsible for delivering the Kingdom's built-environment ambitions.

The conference places MEP engineering at the centre of delivery. HVACR systems, cooling infrastructure, District Cooling, controls, refrigeration, IAQ, water systems, energy efficiency and data centre cooling are core enablers of quality of life, industrial diversification, tourism, digital infrastructure, healthcare resilience, airport expansion, food security and national competitiveness.

CENTRAL THESIS

The next phase of Saudi construction will be won not only by those who can build fast, but by those who can engineer buildings and infrastructure that are efficient, reliable, healthy, digitally enabled, financially disciplined, locally capable and resilient under Saudi conditions.

SAUDI-SPECIFIC CONTEXT SHAPING THE AGENDA

- **Vision 2030 and giga-project delivery:** The Kingdom is delivering major urban, tourism, entertainment, residential, industrial and infrastructure programmes, including PIF-backed projects, such as NEOM, Qiddiya, Red Sea Global, ROSHN and Diriyah, as well as major Riyadh, Jeddah and Eastern Province developments.
- **Data centre and AI infrastructure growth:** Saudi Arabia's digital economy is increasing the importance of mission-critical cooling, electrical resilience, water strategy and high-density thermal management.
- **Energy efficiency and emissions reduction:** The Saudi Green Initiative and Saudi Energy Efficiency Center priorities make building energy

OVERVIEW

WHY TQUADC KSA, AND WHY NOW?

THE **conference responds to a convergence of forces in the Saudi market**

- Saudi Arabia is scaling high-performance built environments across tourism, residential, entertainment, healthcare, education, logistics, industrial and digital infrastructure.
- HVACR selection is increasingly linked to lifecycle cost, energy intensity, IEQ, emissions reduction, water consumption and system reliability.
- The rise of AI-ready data centres has elevated cooling efficiency and resilience to a board-level issue for clients and developers.
- Cold-chain expansion, 3PL logistics, food security, pharmaceuticals and industrial development require more reliable and efficient refrigeration and industrial cooling solutions.
- MEP consultants and contractors need fairer commercial conditions to deliver the technical outcomes expected by owners, authorities and end users.
- Building owners and FM firms are under pressure to improve existing assets, reduce energy costs, improve occupant experience and adopt digital/AI-enabled operational models.
- Manufacturers and suppliers need direct access to decision-makers who influence specification, procurement, value engineering, commissioning and long-term operations.

performance a strategic issue, not only an operating-cost issue.

- **Water security:** **The National Water Strategy makes demand management, wastewater reuse, resilience and water optimisation directly relevant to HVACR, District Cooling, industrial cooling and data centre design.**
- **Regulated delivery ecosystem:** **Balady classification services, Saudi Council of Engineers accreditation, Saudi Contractors Authority involvement, Nitaqat/Saudisation requirements and local-content expectations are reshaping how contractors, consultants and suppliers qualify for work.**
- **Commercial discipline:** **Payment delays, late change-order approvals, unclear scopes, value engineering that undermines system performance and contractor cash-flow pressures can directly impair energy efficiency, reliability and IEQ outcomes.**

OVERVIEW

THE RESILIENCE FORUM

THE CLIENT CONSULTANT CONTRACTOR CONFERENCE

7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

WHY THE MEP PAYMENT DISCUSSION BELONGS IN AN HVACR CONFERENCE

Delayed or incomplete payment to MEP consultants and contractors is not only a commercial issue. It can affect the ability of qualified specialists to invest in proper design, coordination, commissioning, skilled labour, testing, training and post-handover support. In turn, this can weaken energy efficiency, water-use optimisation, IEQ, data centre cooling reliability and industrial cooling performance. This is the premise of TQuadC, and the 7th Edition of the Conference positions payment discipline as an enabling condition for Saudi Vision 2030-quality engineering. infrastructure, communities, industries and mission-critical facilities.

KEY TOPICS

THE RESILIENCE FORUM | THE CLIENT CONSULTANT CONTRACTOR CONFERENCE | 7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

PROTECTING the interests of MEP consultants and MEP contractors: Ensuring on-time and complete payment for MEP works executed, so that specialist consultants and contractors have the financial stability to deliver energy efficiency, water-use optimisation, IEQ, data centre cooling reliability and industrial cooling excellence, in support of Saudi Vision 2030.

Best practices in MEP consultancy and contracting: Design coordination, commissioning discipline, BIM-enabled delivery, design-for-maintainability, realistic value engineering, lifecycle cost analysis, IEQ performance and verified energy savings.

Engaging building owners and sectoral end users in retrofit projects: How developers, owners' associations, REGA-linked real estate stakeholders, mall operators, healthcare providers, universities, hospitality groups and industrial clients can prioritise retrofits that reduce energy and water demand while improving occupant experience.

FM, CaaS and AI-enabled operations: The enhanced role of FM firms and Cooling-as-a-Service providers in improving building performance, using AI, BMS analytics, predictive maintenance, digital twins and stronger financial models.

Data centre cooling and mission-critical resilience: Challenges facing clients, consultants and contractors in Saudi data centre projects, including high-density racks, AI workloads, water use, reliability, heat rejection, redundancy, commissioning and lifecycle operations.

Cold storage, 3PL and food-security infrastructure: Challenges in cold stores, logistics hubs, food processing, pharmaceutical cold chain and import-dependent supply chains; refrigeration reliability, energy efficiency, low-GWP refrigerants and temperature integrity.

Saudi contractor and engineering-office classification: Implications of Balady classification, Saudi Council of Engineers technical evaluation, Saudi Contractors Authority participation and credit/technical evaluation in improving transparency, quality and market confidence.

Regional regulatory learning: How lessons from the UAE and Dubai's updated contractor/engineering consultancy rating and contracting-law discussions can inform Saudi stakeholder dialogue, while being adapted to Saudi-specific frameworks, authorities and market realities.

KEY TOPICS

Energy efficiency and Saudi Building Code alignment: SBC 601/602, SEEC initiatives, envelope performance, HVAC efficiency, controls, commissioning, retro-commissioning and measurable operating performance.

Water-use optimisation: TSE use, condensate recovery, cooling tower optimisation, smart leak detection, low-water cooling, desalination-energy linkages and National Water Strategy priorities.

Urban resilience and decentralised essential services: Distributed energy, rooftop solar PV, BIPV, battery storage, microgrids, smart BMS, localised water recycling, controlled-environment agriculture and onsite waste-to-energy in resilient communities.

Local content, Saudisation and service readiness: Saudi workforce development, Saudi engineering and technician capability, local manufacturing, spare-parts availability, training academies and supplier localisation.

Green finance and ESG-linked procurement: Using green finance, performance contracts, ESCO models and lifecycle procurement to enable energy efficiency and retrofit investments.

CONFERENCE FORMAT

THE CONFERENCE will follow a high-engagement format. The core approach is to combine authoritative policy context, technical depth, stakeholder debate and direct sponsor-to-market engagement.

The make-up of the conference includes Special Addresses, Industry Leadership Address, Horseshoe Discussion, Panel Discussions, Technical Presentations, Structured Audience Q&A Session, Sponsor Recognition and Structured Networking and Interaction in the Exhibition Area.

PROGRAMME AGENDA

THE RESILIENCE FORUM | THE CLIENT CONSULTANT CONTRACTOR CONFERENCE | 7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

8.00am **Registration, Coffee, Networking, Interacting with the Exhibitors**

8.50am **Welcome Address**

Why TQuadC KSA is being convened and why MEP engineering is central to Vision 2030 delivery

Surendar Balakrishnan, Co-Founder & Editorial Director, CPI Industry

9.00am **Chair's Overview**

From smart buildings to resilient ecosystems: Aligning clients, consultants, contractors and suppliers for Saudi Arabia's next phase of delivery

Khalid A. Al Mulhim, Managing Director, Sr. Engineering Consultant, PROTECOOLING - Mulhim Design

9.10am **Technical Presentation**

Topic to be finalised in consultation with sponsored speaker

Viktor Osokin, CEO, Tevmo

9.30am **Planery Discussion**

How clients, consultants and contractors can raise the quality of MEP delivery in Saudi Arabia

- Why delayed or incomplete payment is a technical-performance issue, not merely a finance issue
- How delayed certification, late variation approvals, retention practices and incomplete payment affect the quality of MEP design, installation, commissioning and service support
- Consultancy and contracting practices that improve energy efficiency, lower emissions, 11 reduce TCO, improve reliability and enhance IEQ
- How building owners, owners' associations, REGA- linked real estate stakeholders, malls, hospitals, universities, hospitality operators and industrial end users can be engaged in energy and water retrofit projects
- The evolving role of FM firms and Cooling-as-a-Service providers in creating stronger financial models, better operational efficiency and continuous performance improvement
- Client, consultant and contractor challenges in high-density data centre projects, including cooling redundancy, water use, high ambient conditions, commissioning,
- Consultant, contractor and client pain points in cold stores, logistics hubs, food supply chains, pharmaceuticals and controlled-temperature warehousing
- Balady engineering office classification, contractor classification tracks, Saudi Council of Engineers technical evaluation, Saudi Contractors Authority role and credit evaluation as tools for market transparency

PROGRAMME AGENDA

- Digital coordination for enhanced transparency in stakeholder interactions and documentation
- A proposed stakeholder charter for fair payment, realistic value engineering, proper commissioning, change-order discipline, transparent evaluation and lifecycle-performance accountability

Moderator

Khalid A. Al Mulhim, Managing Director, Sr. Engineering Consultant, PROTECOOLING - Mulhim Design

Participants

- **Abdul Zameer Ahamed Sab**, MEP Lead (Principal), AtkinsRéalis
- **Abdullah Alqahtani**, Projects Delivery Director, King Abdullah Financial District (KAFD)
- **Taher Al-Shayeb**, Sustainability Sales Manager, Siemens Smart Infrastructure, Vice President & Government Affairs Committee Chair, ASHRAE Saudi Arabia Chapter
- **Javeria Asad**, Chair - Women In ASHRAE Committee, ASHRAE Saudi Arabia Chapter
- **Tamer Dahdouli**, Associate Director, Diriyah Company Limited
- **Mohammad Majed**, Associate Director, Data Centres, AI, Black & White Engineering
- **Abdelsalam Shqair**, Data Center Operations Excellence Director at Ezditek, Committee Chair, ASHRAE Saudi Arabia Chapter
- **Mohamed R. Zackariah**, Chief Consultant, PROTECOOLING - Mulhim Design

10.10am **Technical Presentation**

Topic to be finalised in consultation with sponsored speaker

DRI/Bry-Air

10.30am **Technical Presentation**

Topic to be finalised in consultation with sponsored speaker

EFSIM Facilities Management Company

10:50 am **Coffee Break, Networking, Interacting with Exhibitors**

11.00am **Technical Presentation**

Topic to be finalised in consultation with sponsored speaker

Quresh Motiwala, Senior General Manager, Galloway Engineering Solutions

PROGRAMME AGENDA

THE RESILIENCE FORUM | THE CLIENT CONSULTANT CONTRACTOR CONFERENCE | 7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

11.20am **Technical Presentation**

Sustainable Cooling for Saudi Arabia's AI & Data Center Growth: Delivering Efficiency & Resilience

Nasir Ali, Board of Governors Member & Chair – Refrigeration Committee, ASHRAE Saudi Arabia Chapter

11:40am **Panel Discussion**

Urban resilience through decentralised essential services: Energy systems, water systems, food security, waste management, microgrids, smart BMS, rooftop solar, battery storage, localised water recycling and controlled-environment agriculture

Moderator

Mohamed R. Zackariah, Chief Consultant, PROTECOOLING - Mulhim Design

Participants

- **Dr. Carmen El Chadaideh**, Managing Partner, Kilmacontra, Chair of the Education and Marketing Committee, AMCA Middle East
- **Dr. Ahmed Taha Nouman**, Director of Environment, Al Rajhi Building & Construction Company
- **Shanthini Rahamathullah**, Chairperson and Managing Director, Rsquare Technologies W.L.L
- **Neeraj Sharma**, Deputy Manager, Sustainability, ASHRAE Saudi Arabia Chapter, YEA Committee Member, Technology Transfer Committee Member

PROGRAMME AGENDA

SPECIAL SESSION: WOMEN IN ENGINEERING

12:10 pm **Panel Discussion**

The role of women engineers in climate-resilient cities and the energy transition. Women engineers as Saudi Arabia's frontline technical leaders in climate adaptation and decarbonisation, not peripheral contributors.

Role of women in:

- Urban heat mitigation engineering
- District cooling integration with city planning
- Renewable energy deployment at utility and city-scale
- Cooling demand management in climate-intense megacities
- Grid modernisation and energy storage strategies

Moderator

Javeria Asad, Chair - Women In ASHRAE Committee, ASHRAE Saudi Arabia Chapter

Participants

- **Rahaf Mubark Al Dosari**, Environmental Programs & Projects
- **Ruba Alhashimi**, Senior Architect, DAR International
- **Keeva Duffey**, Global Sr. Advisor Sustainability, ChildFund International
- **Shannon Dunn**, Co-Founder and President, Delos Arabia
- **Shereen Mosallam**, Digitalization and Operational Excellence Consultant, Symbios Consulting and Training
- **Shanthini Rahamathullah**, Chairperson and Managing Director, Rsquare Technologies W.L.L

PROGRAMME AGENDA

THE RESILIENCE FORUM | THE CLIENT CONSULTANT CONTRACTOR CONFERENCE | 7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

12:30pm **Panel Discussion**

Enabling mechanisms for women: The specific structural, regulatory, corporate, and economic mechanisms that must be engineered to enable women to contribute at full technical capacity to Saudi Arabia's prosperity

- Workplace engineering systems that enable performance
- Safety, site design and field engineering access
- Leadership acceleration mechanisms
- Procurement reforms enabling women-led firms
- Infrastructure for caregiving and family support
- Metrics-driven accountability for inclusion

Moderator

Javeria Asad, Chair - Women In ASHRAE Committee, ASHRAE Saudi Arabia Chapter

Participants

- **Dr. Eman M. Alhajji**, Chief Executive Officer, The Golden Ratio Holding Institute for Research,Development and Innovation
- **Dr. Carmen El Chadaideh**, Managing Partner, Kilmacontra, Chair of the Education and Marketing Committee, AMCA Middle East
- **Anam Ghaffar**, Manager QA/QC, Corys Packaging
- **Najla Mohammed Hussein Ibrahim Ahmed**, Senior Civil Structural Design Engineer, AASCC Consulting Company
- **Hafsa Niaz Naseem**, Associate Analytics Consultant, Ascend Solutions
- **Manar Yousef**, PMO Lead, Dar Wa Emaar

12:50pm **Sponsor Recognition Ceremony & Vote of Thanks**

Frédéric Paillé, Co-Founder & Commercial Director, CPI Industry

1:00pm **Networking Lunch, Interacting with the exhibitors**

PREVIOUS SPONSORS

THE RESILIENCE FORUM

THE CLIENT CONSULTANT CONTRACTOR CONFERENCE

7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

WHY ATTEND?

- Understand the latest KSA-specific direction on ensuring business and financial stability of the MEP stakeholder community of consultants and contractors, with a view to improving energy efficiency, IEQ and reliability, to name three aspirations.
- Receive practical clarity on Saudi-specific standards and ratings systems of contractors and consultants.
- Learn how specialised MEP consultants and contractors, unfettered by payment delays or non-payment challenges, and working closely with clients (master developers and developers) can make key contributions to meeting Saudi Arabia's Kigali obligations, to the growth of the country's ambitious data centre ecosystem, public health solidity, cold chain robustness and other socio-economic and sustainable development targets.
- Hear project case studies from Saudi Arabia, including lessons learnt from design, installation, commissioning and O&M.
- Explore how AI can drive innovation in HVACR (technology, installation, commissioning, etc.).
- Meet manufacturers, suppliers, consultants, contractors, FM companies, certification bodies and regulators in one focused platform.
- Build partnerships for training, localisation, maintenance, warranty support, long-term service excellence, etc.
- Bring back practical insights that can be applied immediately in procurement, design review, O&M planning and sustainability reporting.

WHY SPONSOR?

THE RESILIENCE FORUM | THE CLIENT CONSULTANT CONTRACTOR CONFERENCE | 7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

TQUADC KSA is designed for HVACR manufacturers and suppliers that are seeking meaningful access to Saudi Arabia's project decision-making ecosystem. Sponsorship should be positioned as a strategic market-development investment, not merely as logo placement.

Reach decision-makers

As sponsor, you will have direct access and exposure to master developers, developers, MEP consultants, MEP contractors, general contractors, general consultants, architects, ESCOs, FM firms, CaaS providers and sectoral end users (aviation, cold chain, data centres, education, healthcare, hospitality, malls, etc.).

Influence specification

You will have access to participating in technical sessions and panel discussions to explain performance, lifecycle cost, reliability, water impact, IEQ and commissioning requirements before procurement decisions are fixed.

Build credibility

You will be able to align with – or strengthen your existing alignment with – Saudi Vision 2030, Saudi Green Initiative, energy efficiency and resilience topics, which will help position you as partner in national transformation.

Generate qualified leads

Focused attendance will allow you as sponsor to meet stakeholders involved in live or upcoming projects across real estate, data centres, healthcare, aviation, malls, education, hospitality, logistics and industry.

Defend value against lowest-price procurement

Perhaps most important, the agenda will allow you to articulate TCO, efficiency, reliability, IAQ/IEQ and maintainability, strengthening the case against purely capex-led selection.

Show Saudi readiness

As sponsor, you can demonstrate local service teams, spare-parts availability, training academies, Saudi workforce development and Saudi reference projects, building powerful traction for commercial growth.

Technology showcase

You will be able to display chillers, AHUs, FCUs, airside systems, controls, sensors, valves, pumps, cooling towers, heat exchangers, District Cooling components, refrigerant solutions, filtration systems, IAQ products, data centre cooling solutions and AI-enabled building technologies.

ABOUT CPI INDUSTRY EVENTS

THE RESILIENCE FORUM | THE CLIENT CONSULTANT CONTRACTOR CONFERENCE | 7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

At CPI Industry, we are delighted by the growth trajectory of our Events Division. We conducted our first event in May 2007. Since then, we have crossed 100 events.

This event is our 108th, and for that we are immensely grateful to those that have associated with us as Speakers, Delegates, Partners, Sponsors and Exhibitors.

Thank you for believing in us in this enterprise that is dedicated to supporting socio-economic and sustainable development.

ABOUT CPI INDUSTRY EVENTS

THE RESILIENCE FORUM | THE CLIENT CONSULTANT CONTRACTOR CONFERENCE | 7TH EDITION

12 October 2026 I Riyadh, Saudi Arabia

CPI INDUSTRY is a publishing house that started producing events as an extension of its communications drive in the HVACR industry through its magazine (*Climate Control Middle East*) and directories.

While the magazine largely focuses on core HVACR aspects, the events probe the core and all allied areas, be they energy security (district cooling and cogeneration), food security (refrigeration), food safety & quality assurance (again, refrigeration) or indoor environmental quality.

CPI Industry started conducting events in May 2007, starting with the unique DC Dialogue, a technically intensive discussion on the district cooling industry. Since then, CPI Industry has established a portfolio of events, all with the twin purposes of information exchange and raising the bar on technology and business solutions in the region.

To date, CPI Industry has conducted over 100 events. They include DC Dialogue (multiple editions), Middle East VRF Conference (multiple editions), The Climate Control Conference (C3) (multiple editions), Refrigerants Review (multiple editions), World IEQ Forum (multiple editions), The Client Consultant Contractor Conference (multiple editions), Climate Control Awards (multiple editions), Climate Control SAUDI Awards (multiple editions), Climate Control Awards INDIA (1 edition), Food Chain (multiple editions), Middle East HVAC Fire Safety Conference (multiple editions) and The Rain Resilience Conference.

PARTICIPATION

In our events, we have attracted participation from government bodies, implementation bodies, industry associations and councils and Fortune 500 companies. Some of the participants include:

- 3RD GROUP CONSULTANCY
- ADC Consultants
- Adnan Saffarini Consultants
- AE7
- AESG
- Al Abir Engineering Consultants
- Al Hadara Consulting Engineering
- Arc International
- Arkiplan
- Atkins
- Azemco
- Abu Dhabi Department of Energy
- Abu Dhabi Quality and Conformity Council
- AHRI
- Alternatives and Emissions Branch
- AMCA International
- ASHRAE UAE Falcon Chapter
- ATP
- Blackwit
- Bluehaus Engineering
- Building4health, Inc., USA
- Consistent Engineering Consultants
- Cubic Engineering Consultancy
- Clean Energy Business Council (CEBC)
- Dar Group
- DC Pro Engineering
- Dewan
- Dulsco
- Department of Education and Knowledge, Abu Dhabi
- Doha Municipality
- Dubai Chamber of Commerce and Industry
- Dubai Municipality
- Dubai Supreme Council of Energy
- Electricity & Cogeneration Regulatory Authority (ECRA), Saudi Arabia
- Ehaf Consultants
- Emergy
- Emirates Authority for Standardisation and Metrology (ESMA), UAE
- Emirates Green Building Council (EGBC)
- Environmental Investigation Agency, USA
- Estidama, UAE
- Eurovent Certita Certification
- Eurovent Middle East
- Fakhruddin Properties
- GRFN
- Guth De Canzo
- GCC Health Ministers' Council for the Cooperation Council States
- GCC Standardisation Organisation (GSO)
- Government of Abu Dhabi (Abu Dhabi Food Control Authority)
- Government of Dubai (Dubai Municipality, Food Control Department)
- Government of Dubai (Department of Planning & Development, Ports, Customs & Free Zone Corporation (Trakhees)
- Harvard Medical School
- Harvard T.H. Chan School of Public Health
- Health Ministers' Council for the Cooperation Council States
- IDP Engineering Consultancy
- Independent Consultant
- Institute for Governance & Sustainable Development (IGSD)
- International Institute of Refrigeration
- Interpol
- Khatib & Alami Consultancy
- Kova PMC
- Kuwait National Ozone Committee (Environmental Public Authority)
- Middle East Facility Management Association (MEFMA)
- Mario Associates Mechanical & Electrical Engineering Consultancy
- Middle East Solar Industry Association (MESIA)
- Ministry of Energy, UAE
- Ministry of Environment, Lebanon
- Ministry of Environment & Water (MEW), Kuwait
- Ministry of Climate Change & Environment, UAE
- Ministry of Health, Sultanate of Oman
- Ministry of Infrastructure Development, UAE
- Ministry of Public Works, Bahrain
- Montreal Protocol
- Office of Atmospheric Programs
- Office of Environmental Policy, US Department of State
- Parsons Corporation
- PK Goel Engg Consultant/Eurovent Certita Certification
- Ras Al Khaimah Municipality
- Regulatory and Supervisory Bureau (RSB) for Electricity and Water
- Roads & Transport Authority, UAE
- Royal Estates, Oman
- RVT Engineering Consultant
- Qatar Foundation
- SASO
- Saudi Aramco
- Saudi Green Building Council (SGBC)
- School Of Aerospace, Transport And Manufacturing, Cranfield University, United Kingdom
- Seed Engineering Consultants
- Suhaimi Design - Protecooling
- Sobha Realty
- Society of Fire Protection Engineers (SFPE)
- Stratospheric Protection Division
- Supreme Council of Health, Qatar
- Taka Solutions
- Technology and Economic Assessment Panel (TEAP)
- Terre Policy Centre
- The Research Council of Oman
- TransFrig
- UAE Society of Engineers
- UNIDO
- UNDP
- University of Birmingham
- US Environmental Protection Agency (EPA)
- U.S. Green Building Council
- Vindico Project Management Services
- World Customs Organisation
- World Food Programme (and more...)

FOLLOW-UP MECHANISM

There is a strong follow-up mechanism in the case of all the events, with the generation of post-event reports, and also text and video coverage on CPI Industry's online platforms. The reports contain key statistical data and analyses. They are circulated to all the government ministries in the region that have an interest in the areas of discussion.

2026 EVENTS

REFRIGERANTS REVIEW
SAFETY | ENVIRONMENT | EFFICIENCY
5TH EDITION

Refrigerants Review

(5th Edition)

21 January 2026 | Dubai, UAE

THE culmination of a year-long Marquee Editorial Campaign on refrigerants, spearheaded by *Climate Control Middle East* magazine, the 5th Edition of the Refrigerants Review conference is the coming together of global stakeholders for discussions that include topics such as trade, finance, climate science, engineering, technology and political structures. The conference comes at a pivotal time, just as the world edges closer to milestone targets for phase-out of climate-harming refrigerants. Global climate-related policy frameworks and country-specific building codes have compelled and motivated manufacturers of refrigerants to look for alternative solutions to those in circulation, with an eye on lower GWP, greater energy efficiency and, equally crucial, occupant safety.

Refrigerants Review is an immersive discussion on refrigerants that engages policy makers, regulators, enforcement bodies, scientists, manufacturers of HVACR equipment and refrigerants, service providers and sectoral end-users. To date, this unique conference platform has brought together international stakeholders to discuss broad issues, including the assessment of refrigerants, keeping in mind such factors as health & safety, energy efficiency, Global Warming Potential (GWP), Ozone-Depleting Potential (ODP) and Lifecycle Climate Performance (LCCP).

EVENT #105

CLIMATE CONTROL AWARDS INDIA
1ST EDITION

Climate Control Awards India

(1st Edition)

May 2026

POPULARLY known as the 'Oscars of the HVACR Industry', the objective of the black-tie, gala dinner event is to recognise outstanding performance across the various disciplines of the HVACR industry and to raise the bar on building performance, cold chain and fire safety, to name three. To achieve the objective, CPI Industry enlists the services of seasoned HVACR and other relevant domain-specific professionals as judges and of a third-party certification agency to evaluate companies under several categories. Climate Control Awards India is part of CPI Industry's long-standing awards programme, which to date has hosted 17 Awards ceremonies across Saudi Arabia and the United Arab Emirates. The Awards exercise serves as an objective and accurate barometer of the industry.

www.climatecontrolawards.com/india

EVENT #106

WHY DO BESPOKE EVENTS OR WEBINARS/ POCAST WITH CPI INDUSTRY?

Bespoke Events

- A successful track record of 50+ high-quality events for bluechip multinational companies
- A professional and committed team to manage your events successfully from inception to completion
- An enabling structure that helps you customise your events to be a focal point to accelerate your brand goals and business scale
- An ecosystem of expertise that provides support to have an unique mix of conferences, workshops and technical seminars
- A rich database that helps you source high-profile speakers and industry experts to share valuable insights, as per the event theme
- A well-oiled marketing mechanism to provide a 360-degree strategic plan to amplify your commercial messages

EVENT #108

THE CLIENT CONSULTANT CONTRACTOR CONFERENCE
6th edition

The Client, Consultant, Contractor Conference

03 June 2026 | Dubai, UAE

"THE Client, Consultant, Contractor Conference" is the most comprehensive ever and largest gathering of general and MEP consultants and contractors in the GCC region with a clearly defined agenda to discuss issues that are preventing and, at times, perhaps even impairing them from delivering optimal solutions. The conference comes at a critical time, with Dubai announcing an update to the Contractor and Engineering Consultancy Rating System, in mid-2025. Set to come into force in early 2026, it aims to usher in a more accurate and integrated framework for evaluating the performance of construction firms and engineering offices across the emirate. According to Dubai Municipality, it will include a wider range of performance indicators and assessment criteria, which will enable more precise evaluations of technical capacity, project execution quality, regulatory compliance and sustainability practices.

Dubai Municipality said the updated rating system, which is expected to provide greater transparency to property developers and property owners, will assess contractors and consultants on the basis of such KPIs as financial solvency; the rate of emiratisation; participation in CSR initiatives; the timely delivery of projects; the adoption of innovative, tech-driven project designs and execution methods; and the integration of detailed feedback from property owners.

The second development in 2025 was the introduction of the updated contracting law (Law No. 7), under which all contractors operating in Dubai have to be classified based on their expertise, qualifications and whether they have the resources to take on a project. Further, the law stipulates that any sub-contracts can be awarded only after prior approval.

There is no disputing the fact that best practices in consultancy and contracting services represent two important pillars that hold up such targets as greater energy efficiency (towards lowering emissions and the Total Cost of Ownership (TCO)), reliability and Indoor Environmental Quality (IEQ). In view of this, the Conference hears consultants and contractors speak on their concerns and explore the pathway to an enabling environment for them to sustain their businesses and to offer the best-in-class solutions.

Naturally, this unique and comprehensive gathering of general and specialised MEP consultants and contractors offers a unique opportunity for manufacturers and suppliers to showcase updates in technologies and their applications.

EVENT #107

EVENT #108

THE GREAT HVACR FAIR

THE CLIENT CONSULTANT CONTRACTOR CONFERENCE
7TH EDITION

The Client, Consultant, Contractor Conference

(7th Edition) (co-located event)

12 October 2026
Novotel Riyadh Al Anoud, Saudi Arabia

"THE CLIENT, CONSULTANT, CONTRACTOR CONFERENCE" is the most comprehensive and largest gathering of clients (master developers, developers, building owners, Jointly Owned Properties (JOPs), Building Owner Associations, sectoral end-users), and Civil, Structural and MEP consultants and contractors in the Kingdom of Saudi Arabia with a clearly defined agenda to discuss existential and other critical issues that would enable them in delivering optimal solutions towards socio-economic and sustainable development. The 7th Edition, in addition to focusing on energy efficiency, water use optimisation, IEQ, and data centre and cold chain infrastructure, will also focus on resilient urban ecosystems in the Kingdom.

EVENT #108

IDEC Innovations

IDEC Innovations

(1st Edition) (co-located event)

12 October 2026
Novotel Riyadh Al Anoud, Saudi Arabia

INDIRECT Direct Evaporative Cooling (IDEC) is on a roll, if proponents are to be believed. Adding heft to the "momentum" is regulation specific to IDEC in the Kingdom. IDEC Innovations will spotlight the regulation and provide an opportunity to present case studies that indicate acceptance, progress and yet another peg in the sustainable cooling pole.

EVENT #109

CLIMATE CONTROL SAUDI AWARDS 2026
3RD EDITION

Climate Control SAUDI Awards

(3rd Edition) (co-located event)

12 October 2026
Novotel Riyadh Al Anoud, Saudi Arabia

AS AN icing on the cake is the other co-located event – the 3rd Edition of Climate Control SAUDI Awards (a part of CPI Industry's much-vaunted Awards Programme, which has seen 18 editions so far), which aims to recognise and honour beyond-the-call-of-duty engineering and project management efforts, among other aspects supporting the Kingdom's objectives of sophisticated socio-economic and sustainable development targets.

2026-2027 EVENTS

Climate Control Awards

(16th edition)

24 November 2026 | Dubai, UAE

POPULARLY known as the 'Oscars of the HVACR Industry', the objective of the black-tie, gala dinner event is to recognise merit across the various disciplines of the HVACR industry and to raise the bar on building performance, cold chain and fire safety, to name three. To achieve the objective, CPI Industry enlists the services of seasoned HVACR and other relevant domain-specific professionals as judges and of a third-party certification agency to evaluate companies under several categories. Into its 16th year, the Climate Control Awards exercise serves as an objective and accurate barometer of the industry.

EVENT #111

DC Dialogue

(13th Edition)

7 January 2027 | India

THE 13th Edition of District Cooling Dialogue ("DC Dialogue") comes with all the prestige and sophistication of several rounds of discussion on the policy, technology, engineering and business of District Cooling. The conference is a granular perspective on several aspects of the CHW business and gathers multiples engineering disciplines and specialisations. India is an exciting ecosystem of cooling demand, innovation and end-use diversity. District Cooling, as a utility, holds promise of endurance and alignment with climate action goals. DC Dialogue comes to India at an opportune time.

EVENT #112

Food Chain

(12th edition)

20 January 2027 | Dubai, UAE

THE digital transformation of the food cold chain, including retail aspects, is the theme of the 12th edition of Food Chain. Digital technologies are blowing significant changes into all aspects of the cold chain, and the benefits, in the form of improvements in food safety & quality assurance (FSQA) and food security, are palpable. Food Chain is a coming together of all food and agri cold chain disciplines, including post-harvest, 3PL cold storage warehousing companies, dedicated warehouses (large, medium and small), transport refrigeration (body-building, condensing unit and fleet management) experts, government regulators, contractors, consultants, technology solutions providers, supermarkets, hypermarkets and other sectoral end-users for macro- and micro-discussions.
